Bioterrorism threatens a frightened nation as envelopes laced with suspected anthrax are delivered to various government and media figures.

Dumbledore, Voldemort and Hagrid become household names as Harry Potter and the Sorcerer’s Stone breaks boxoffice records worldwide.

September 11, 2001
The country reels from the world’s deadliest act of terrorism and the largest single-day loss of life in American history. Two commercial planes are hijacked and flown minutes apart into the twin towers of the World Trade Center in New York City. Another plane destroys a portion of the Pentagon and a fourth plane crashes into a field near Shanksville, PA – the plane’s intended target thought to be Washington DC. Fatalities approach 4,000 and the nation is irrevocably scarred. Our morning television lecture was cancelled as we watched the horrific event unfold on the big screen in Tobin Hall. A huge outpouring of American patriotism and unity follows. God Bless America.

2001

Blackout cripples the northeastern US and parts of Canada leaving tens of millions without power.

The United States invades Iraq in search of weapons of mass destruction. Thousands of troops are called to active duty to fight in “Operation Iraqi Freedom.”

Gay marriage is briefly sanctioned in San Francisco as same-sex couples tie the knot for the first time ever.

Controversy reigns at the box office as The Passion of the Christ and Fahrenheit 9/11 explore sensitive topics.

Superman Chris Reeves succumbs to his spinal cord injury after years of fighting for stem cell and spinal cord research.

The Boston Red Sox break the “Curse of the Bambino” by winning their first World Series since 1918.

Former Mr. Universe and Terminator, Arnold Schwarzenegger, is elected governor of California.

Formerly of Enron, Venezuela, Saudi Arabia, and Malaysia,修身堂’s founder John Mackay, NOKIA, and the South China Morning Post end up on the Rearseats of History.

Class of 2005
History of Stritch

In 1870, Reverend Arnold Damen founded Saint Ignatius College, a liberal arts college at the University of Chicago and was relocated to what is now Lake Shore Campus.

At that time, Chicago boasted several independent medical colleges. Reisen Medical College joined the affiliation in 1910. By 1917, the Chicago College of Medicine and Surgery was on South Wolcott, just adjacent to Cook County Hospital, College of Education and Hospitals of the American Medical Association.

It wasn’t until the 1940’s that Loyola was able to flourish as a fundraising driver for the school. This became a major source of approved a motion for the school to be renamed as the Stritch School of Medicine.

As the school grew, a larger facility was desperately needed, and plans for the construction were constructed on a 60-acre parcel of land in Maywood, Illinois, next to the House of Veterans 1, 1969 and the 504-bed Foster McGaw teaching hospital, named after a generous.

In 1981, the Miltosky Opatent Center opened the many administrative offices at Loyola.

In 1986, the 9-story Russo Surgical Pavilion was added to the complex. In the same year, the addition of the LifeStar Helicopter Emergency Medical System and the completion.

In 1994, a cancer center was built to serve that particular patient population. The center also provided care in the facility. Again, the school outgrew its accommodations, and in July 1997, the current Stritch School of Medicine opened its doors on January 1, 2001. The Center for Health and Fitness was also added.

The most recent addition to Loyola is the Opatent Center located on the south end of the campus. It includes an ambulatory surgery facility, a brand new MRI machine, and room for all specialties.

Loyola University Health System currently is a teaching tertiary care facility with 336 licensed beds. Loyola has a commitment to providing care for all residents of the community which it serves. It continues to be nationally recognized for its excellence in many different fields. Cardinal Stritch would be proud that he and his friends and their vision of "providing a major Catholic medical center dedicated to meeting the ever-changing needs of the community."

Oh great digital goddess,
Where have you gone?
My computer’s on fire;
How will I play my pirated song?

We long for your giant cup of pop
On your little luggage cart.
Who on this planet
Will get the server to start?

You were number one with storage devices
Whether cd, floppy, or Zip.
You were always there
When my disk would slip.

Visiting your “eclectic” office
Proved such a treat.
Now I have trouble
Pushing control-alt-delete.

On Halloween a pointed black hat
Crowned your long dark hair,
And striped orange socks
Gave even Bill Gates a scare.

One thing is for sure:
God’s pearly Gateway PC
Will always and forever
Remain virus free.

We miss you Diane Lona-Roundtree——
XOXO—Dr. D. and the entire Stritch family.

Written by Dr. Michael Dauzvardis,
Friend of Diane’s

---

*The central figure is St. Luke, the patron saint of medicine. His robe is green, the symbolic color of both life and medicine. The red heart in the center of his chest not only represents God's love and care for others, but also symbolizes biology and physiology. The red staff of Asclepius in his hand is an ancient Greek and Roman symbol of healing. The figure’s prominent hands symbolize caring for others, community, and society through public health initiatives. St. Luke is walking down a yellow gravel path that represents the golden path of life.*

*St. Luke’s eyes direct the viewer to the panels on the left which are comprised of symbols of core clinical and basic science disciplines. These include a mortar and pestle representing pharmacology and pharmacy, the Greek word “hygieia” symbolizing public health and hygiene, a scalpel for surgery, forceps for obstetrics and gynecology, a tube used as an early stethoscope for medicine, a genderless face with “Rx” and male and female symbols for psychiatry and the behavioral sciences, a flask of ether for both biochemistry and the major advances in the medical sciences, a skull representing anatomy, a book as a source of knowledge with “DNA,” the basic unit of life, and “PCN” (penicillin), one of the major advances in the fight against infection.*

*The window also includes three larger panels to the right of St. Luke. The first depicts Mother Cabrini, a member of a local Chicago order of nuns who is a saint and was the founder of the first Catholic hospital. The second features a face peering into a microscope. The microscope is a symbol of pathology, microbiology, and science. The face represents a medical student in his or her quest to master knowledge of disease. The third panel depicts Mother Theresa, a saint who spent her life caring for the sick and poor, holding an infant as a symbol of pediatrics.*

*There are a variety of other symbols in the central panel including two flowers. The purple flower on the right is foxglove, the source of digitalis. The red flower on the left is a poppy, the source of opium and morphine. The words “Primum non nocere” translate to “First do no harm,” the first rule of medicine dating back to the age of Hippocrates. “Honora medicum a Deus enim omnis medicum,” a quotation from the Old Testament, states that one is to honor the physician because he or she derives wisdom from God. Finally, the name of Raphael, the archangel, appears in association with the winged serpent Caduceus, the guardian of science and knowledge. In Hebrew, this name means “beautifier of God.” It is also the baptismal name of Dr. Ralph P. Leischner, an honored Loyola physician who worked with the artist, David Lee Ciuccio, in the design of this window.*
Inside of this building, we have studied, we've played, made lifelong friends, eaten, and sometimes even slept. The stories of our lives have played out within the walls of Stritch... as much as we love Maywood, we have enjoyed broadening our horizons through externships and vacations across the United States and beyond.
Girls Just Want to Have Fun!

Boys Will Be Boys!
INTERNATIONAL SERVICE IMMERSION TRIPS

In the summer of 2002, 72 of us embarked on once-in-a-lifetime journeys. With the support of University Ministry, we were given the opportunity to participate in a the International Service Immersion program. Our class showed great enthusiasm and record numbers of students volunteered their time and efforts. Planning began well in advance of the actual trips. We spent all winter and spring calling hundreds of companies and benefactors for contributions to our annual auction. The theme of our auction was “Do You Believe in Magic?” The stairwell was transformed into a giant magician’s hat and Dean Lambesis, the night’s master of ceremonies, stole the show dressed up as a white rabbit. Thanks to the many generous contributors, we raised over $70,000...it truly was a magical night!

Over the summer, students traveled to Belize, Guatemala, Haiti, Ecuador, and Honduras. Each group of students was accompanied by a talented physician and together we provided medical care, monetary donations, and desperately needed medical supplies. Some groups worked in established hospitals while others traveled out to small village communities and provided treatment as well as education and support. Although there were a few mishaps on our trips, including attacks by wild dogs, Dengue and malaria-carrying mosquitoes, blood-borne pathogen exposures, and some undetermined GI bugs, we hung in there for the good of the people we had the chance to serve. For many of us, ISI was truly a life-altering experience that we will carry with us forever.

Thanks to Ministry for this opportunity!
Service

talent for treatment

Some of our classmates chose to focus on the AIDS epidemic in Africa as a worthy fund-raising cause. During AIDS-week, we are educated about the epidemic and its widespread effects with lectures and posters. The week culminates in an annual talent show showcasing our many gifts and abilities. The money raised from the show is donated to orphanages in Africa that assist children affected by HIV and AIDS.

Special Friends

A brain child of the American Cancer Society, Special Friends is a program in which a medical student is paired up with a child with cancer. Big Special Friends act as friends and mentors to their Little. Special Friends, both while in the hospital receiving treatment and in times of remission. We planned trips to bowling alleys, Odyssey Fun World, and several picnic outings.

Community Health

Community Health is a program that was supported and staffed by a very dedicated team of our classmates. This free clinic, located in an underserved Chicago neighborhood provides medical care to patients at no cost. Many students volunteered their services weekly.
Playing Dress-Up
“Trust Me, I’m a Doctor”
The Windy City
The City of Big Shoulders
Chi-Town . . .

Whatever you want to call it, Chicago has been our “sweet home” for the past four years.

"Seriously, that hand makes it no easier for me to concentrate!"
Our first year began with Cell Biology which, as you can see, offered plenty of time to get to know each other outside of school. We moved on to Gross Anatomy, learning not only the human body but also just how long you could wear the same clothes and still have friends speak to you. A little less time for going out, but we still made the effort! After getting back from Christmas break, we were all ready to tackle Physiology and before we knew it, we were taking classes in Immunology as well. And how could we forget the whole year, with interviewing basics, role playing, and our introduction to standardized patients? Those were the days of 4 hours of lecture a day, 4 hours of working out at the gym, and maybe 4 hours of studying (if a test was coming). Monday tests always meant a good post-test party and a low attendance at Tuesday morning lectures.

The Forest Park bars (Healy’s, Doc Ryan’s, and Molly Malone’s) offered almost as much education as did Tobin Hall during first year.

Cory and Marcia represent one of the many couples whose relationship (that has since led to marriage) began during our first year at Stritch.
Our crisp white coats from the "White Coat Ceremony" quickly gave way to the dingy, disgusting whites of the Anatomy Lab.

Clearly, IPM was ALWAYS about the learning experience.

Yet another party at the infamous 411 Beloit Street.

"There's banking, law, architecture, but no... you had to be a doctor... IDIOT!"
After a summer of rest, research, and immersion trips, we began a much busier year upstairs in Lebrelle Hall. Beginning with Neuroscience and Pharmacology, we experienced a whole new level of intensity in our study habits. Building on what we learned the year prior, we began to study about how disease processes affect the human body in Pathology. IPM continued our training in Physical Diagnosis. And of course, the year ended with everyone's favorite Development of the Human Body. We still managed to make time for social outings with each other, whether it be at formals or out on the town.
We definitely both worked hard and played hard. As we continued our education toward becoming doctors, we tried our hardest not to lose our identities outside of the classroom.

For some of us that meant maintaining old friendships and solidifying new relationships. For others, it meant becoming a part of a much more national organization.

"Maybe next they'll let me put in the Foley!"
Third year allowed us to finally start "getting our hands wet" with real patient care. Through the sleepless nights of OB, the endless 14-hour days of Surgery, the hard work of Medicine, the influenza of Peds, and the joys of laid back Psych and Family, we continued to maintain our reputation as the class who likes to socialize.

We may not have been together all in one place often, but we could always count on monthly IPM classes to reconnect!
"For $30,000 you would think Dr. Simpson could remember I like THREE sugars in my coffee."
"We also treat the human spirit." Regardless of where we will all go for residency, the verse we saw each day in the atrium will remind us that caring for the patient is as important as treating the disease.

For some, wedding receptions and casual dinners replaced the Forest Park Bars of our first year.

Don't laugh...in a few short months you'll be doing this to real patients, not just the Anesthesiology dummy!

As fourth year began, we saw even less of each other as many spent time on externships during the summer and fall months. Those around Loyola did their best to get the requirements of Neurology, a Wards Sub-internship, and an ICU Sub-intern out of the way so that we could move on to serious learning in demanding electives such as Cardiographics, Allergy & Immunology, and pretty much anything at the VA. Some time had to be spent studying for Step II, both the computer based test and the new, very popular "clin skills" standardized patient test, but we all survived another round of boards. Everyone's favorite two months of fourth year, "discretionary time," was spent by some interviewing for their future residencies, by others vacationing with friends, and by a few getting married and going on honeymoons. Regardless of how it was spent, it was nice to have some time to ourselves!
Remember When...

...we stood in line for hours during orientation week and took what seemed like a hundred pictures (here they are!)?

...three hours of lecture seemed like a long day?

...Dr. Webber taught us that the kidney stole our water?

...we still had a summer break?

...Dr. Neafsey taught us that a cat without an amygdala will hump a chicken?

...Dr. Davis would keep the lecture hall wide awake with "10 seconds of humor?"

...we learned (again and again) why Dr. Lee "makes the big bucks?"

...one of us halted lecture when he woke up from a dream with an animal-like moan?

...we studied 12-hours a day for a month solid before Step I?

...we woke up at 3:30am to pre-round on our surgery patients?

...we woke up at 9:00am to "pre-round" on our psych patients?

...Dr. Michelfelder told us to enjoy Chicago because, after all, it was our Family Medicine rotation?

...you would wake-up 3 inches from one of your classmates in our luxurious call rooms?

...we did more traveling in one month of interviews than we had in the previous 4 years combined?

...we got to spend $1000 to talk to standardized patients for a whole day during the brand new Step II "Clin Skills" exam?

...we could go to the gym again?

...we re-checked our rank lists a dozen times (just to make sure they hadn't changed since the day before)?

...St. Patrick's Day 2005 was the day we learned where we matched?

...we FINALLY finished school...after the 20th grade?
Burak Alsan, MD

Paul Casey, MD
Thanks to my husband, Dustin, for being so supportive and encouraging to me throughout this whole process.

Thank you also to my parents for getting me to this point—I owe any success in my life to your love and support.

"You must be the change you wish to see in the world."

Mahatma Gandhi
"You must act as if it is impossible to fail."

All I know, I learned from others. You would understand my success if you knew my husband, family, friends, peers, and educators. To them, I give my thanks.
Grandma - I will always remember your kind heart and warm soul.

Grandpa - You are the best role model a boy could have.

Debbie - I am lucky to have you as my best friend. I love you.

Mom - Thank you for your unconditional love and self-sacrificing support.

Matt & Frank - You're my boy, Blue!

Loyola Stritch Class of 2005 - Congratulations ... we made it guys!
To my classmates and friends at Stritch—Heyyyyy... It has been such a wonderful experience with all of you over the past 4 years. I truly feel honored to be a part of such a great group of individuals. Thanks for all the laughter and good times. I will miss you all very much.

To my family—You have always made me realize my potential and I don't think I would have made it this far without you. Thanks for the endless support and words of encouragement. I love you all very much.
Bridget O’Brien, MD

Anthony Polcari, MD
He who began a good work in you will carry it on to completion.

Philippians 1:6
Jennifer Schwieger, MD
Kristin, we did it!! I love you, thanks for your support.
Thanks to my family and friends who encouraged my dreams!
Many thanks to my family and friends for your support over the past four years!
Congratulations Class of 2005! I will look back fondly on the fun times that helped us through the challenges and hard work during this life-altering education. Thank you Mom, Dad, Brian, Brian, Grandpa, and all of my friends and loved ones who have been constant sources of support and love. Thank you also to the teachers and patients at Loyola for helping me to reach my dreams. Best wishes to you all. Liz

Stritch School of Medicine
Burak and Marcella Alsan, M.D.

Congratulations!

We love you very much and are very proud of you both.
Anne, Baba, Yesim, Cigdem, Turgay, Rob, Deryal, Define, and Reis

Paul Casey, M.D.

Paul knew at a young age that he wanted to be a doctor and has followed through on his dream with dedication, perseverance, and passion. We wish him the best of luck and love we doubt that he will be a great success.

Gra Angus Savas

Love, Your Family and Eppie

Sarah M. Cocoma, M.D.

Congratulations!... as you continue to reach out to others and do God's work.

Love, Dad, Mom, Alli, Larry and Fred

Kelly Cunninghamau, M.D.

Touchdown Cunninghamau! Way to go Kally!

We are all so proud of you!
Love,
Dad, Mom -- Mark, Anne, Elvyer -- Chris, Liz
Katie, Ben -- Chris, Katie, Alex -- Doug, Julie
Uncle Al

Jennifer M. Caswell Schaffler, M.D.

Congratulations!! You've had a busy week...

A big hug and a kiss!! From the Schaffler's, Phillips', Kaine, Neil, and House families...Oliver, Webber, Jackie, and Dad
DavId V. Danl., M.D.

We've been watching and cheering!

First Day of School

Mom, Dad, Ana, Bart, and Stefan

A Beginning

Carolyn J. DefAngelo Forsman, M.D.

Keep Smiling! Keep Shining!

Knowing you can always count on us...

...for sure! With all of our love and pride,
Mom, Dad, Stephanie, Chris, Matt, and Jon

Matthew James Dorner, M.D.

Dear Matthew:
Words cannot begin to express just how very proud we are of you. We know you will make a wonderful doctor because of your kindness, patience and great compassion for people.
We love you very, very much.
Mom, Dad, Jon, Keith, Robbie, Kristopher, & Snowie

Daniel C. Erwin, M.D.

We are so proud of you and your accomplishments.
Congratulations Dr. D!
We love you.
Mom, Dad, and the rest of the Erwin, Goldstein, and Turilli Families

Ryan M. Dick, M.D.

Congratulations!

“I was ill and you cared for me.”
Mt. 25:36

May the raindrops fall lightly on your brow
May the soft winds freshen your spirit
May the sunshine brighten your heart
May the burdens of the day rest lightly upon you
And may God enfold you in the mantle of His love.

We are proud of you and we love you so very much.
Mom, Dad, Andy, Sarah, and Stephen

Jessica Carrie Dingman, M.D.

Dear Jessica,
We wish you the satisfaction of seeing your goals achieved, the true contentment that is born of simple things - work, well-done, friends well loved, moments caught and cherished. Always remember how much you are loved, for you are a beautiful, special person.

Love you forever,
Mom & Dad

Ryan Patrick Finnan, M.D.

From Preschool graduation to Medical School graduation, you have excelled every step of the way!

Our Love...
Our Congratulations...
Our Prayers for your future.
Mom & Dad

Benjamin T. Floger, M.D.

Congratulations!
Jeannu Fubrman, M.D.

Congratulations!

"A clever endeavor like this goes to show. With talent like yours, Oh, the places you'll go!"

Dr. Seuss

Maryam Guiahi, M.D.

Congratulations, Mina

Your dream has come true, Jeannu, and there is no one who deserves it more. We are so proud of you! All our love, Mom & Dad

Amy Hagan, M.D.

We've always known you were destined for great things. Your kindness, compassion, and determination are sure to make you a wonderful doctor. We are all so very proud of you and we love you.

Mom, Dad, Brad, and Greg

Kristopher M. Hanson, M.D.

You dreamed the impossible dream and now you have accomplished it!

Kristopher, we are so proud of you. Congratulations.

We love you,

Mom, Dad, Kyle, Andrea, and Amy

Angela M. Harris, M.D.

Congratulations, Ang!!

Continue to dream & set your goals high. You've only just begun a wonderful life. May the Lord keep you the twinkle in His eye and hold you in the palm of His hand.

Love you forever,

Mom, Dad, Luke, Julia, Matt, Paulet, Andrew, & Elga

Kimberly A. Klein, M.D.

Congratulations!

Such a long, hard journey...

We are so proud of who you are and what you have accomplished!

We love you!!!

Mom & Dad

Scott Heinrich, M.D.

We are proud of all you have accomplished.

Always keep on reaching higher.

With all our love

Mom and Dad

Lynley Ken, Inbar, Jonah, & Jordan Shari, Corey, & Haley Susie and Steve

Stephen J. Kraseman, M.D.

Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed.

- Booker T. Washington

Congratulations & All Our Love,

Mom, Dad, Laura, & Beth
Jeffrey J. Luebbert, M.D.

Congratulations!

Your sense of humor has always kept you in balance. Keep Smiling!

We Love You,
Mom, Dad, Tim, Alysa, Nathan, Laura, Eric, Emma, and Niklas

Nathaniel J. Madsen, M.D.

Nate - 9 years old

I'm Nate the Great - I can't help it.

Way to go Nate
We love you much.
The Mad 7+

Danielle C. Manalo, M.D.

YOUR ACHIEVEMENT IS NO SURPRISE FOR US WHO LOVE YOU SO DEARLY. YOU HAVE SHOWN FROM THE START YOU SET YOUR GOALS AND FOLLOW THE RIGHT PATH. MAY YOUR FUTURE Bring YOU MORE SUCCESS AND HAPPINESS. GOD BLESS!

PAPA, MAMA, JON, DEREK,
LOLA JOSIE & UNCLE SANTI

Kristin Manteuffel, M.D.

Kristin, we are very proud of you and of your commitment to care for those with special needs. May God continue to watch over you, guide your steps, and bless you.

We love you.
Dad, Mom, and Heidi
Philippines 4:3-9

Julie Marie Martin, M.D.

Congratulations Sweetheart!

You are amazing. We are all so proud of you for your hard work, your kind heart, and your devotion to serve others.

We love you Julie!
Mom, Dad, Larry, Matthew, and all the Dokeroffs and Martinos

Paula Marfia, M.D.

Congratulations!

Dear Paula,
We love you and are very proud of you and of all of your accomplishments. We wish you God's blessing as you begin your career of service to mankind. May your profession always be a source of happiness and satisfaction to you. All our love, Mom and Dad

Leonardo Marucci, M.D.

CONGRATULATIONS!

- LEO -
IF GOD SIMPLY HANDED US EVERYTHING WE WANT, HE'D BE TAKING FROM US OUR GREATEST PRIZE - THE JOY OF ACCOMPLISHMENT.
-FRANK A. CLARK

WE LOVE YOU,
PAPA', MOM AND TONY

Stritch School of Medicine
Dear Mike,

On this special day, a new beginning, we send all our love to take along the way.

Love always,
Mom, Dad & Joe

Although we are proud of all that you have accomplished, our greatest joy is in the woman that you are. Your compassion and your kindness are sure to make a difference in all the lives that you will touch.

We love you.
Mom and Dad

Katie Miller, M.D.

Congratulations!

Through hard work and dedication, you have realized your dream. We are so proud of all you have accomplished. Never stop believing in yourself.

Love, Mom, Dad, and Family

Sandra I. Motta, M.D.

CONGRATULATIONS, Dr. PEDERSON!

WE LOVE YOU VERY MUCH DAD & MOM

Dr. Ryan G. Porter

THE LORD TURNED A DREAM INTO REALITY. CONGRATULATIONS!

Dr. Ryan G. Porter, M.D.

THE DOCTOR IS IN.

Brett M. Russell, M.D.

You set your goals high and accomplished them.

Michael Santino Pulia, M.D.

Congratulations, we are so proud of you.

Love,
Mom, Dad, Daniel, Eric, Shane, all the Pulia's & all the Murrin's.

We Love you
Mom, Dad, & Drew

Sandra, Congratulations to the third generation of Stritch Medical School graduates! We knew you would always reach your goal. We're so proud of you!

We love you! Mom & Dad and all the family

Katie Miller, M.D.

The adventure continues...

"Trust in the Lord with all your heart and lean not on your own understanding; In all your ways acknowledge Him, and He will make your paths straight."

"We love you"
Mom, Dad, Matt

Benjamin Sears, M.D.

Ben, we are very proud of you and your accomplishments. You will make a fine doctor. Congratulations on this wonderful occasion! Love, your mom, dad, and Adrienne

"We love you"Mom, Dad, Matt

JAMES P. Sostak II, M.D.

DON'T MEASURE YOUR LIFE BY THE BREATHS YOU TAKE, BUT RATHER, BY THE MOMENTS THAT TAKE YOUR BREATH AWAY.

YOU HAVE TAKEN OUR BREATH AWAY!
LOVE,
MOM & DAD
Amy, Tara, & Duran
Ed, Shelby, Tigger, & Frankie too!

Ross Lewis Stutman, M.D.

Congratulations
Your dream has come true! Hard work and passion have paid off - Doc!!! We're all so proud of you.

Much Love.
Mom and Dad. Brent. Lisa.
Erica, Kate, and Alyssa.
and in loving memory.
Grandma and Grandpa Pang

Troy Takagishi, M.D.

Your great looks as a nurse will be surpassed by your skill and passion as a physician.

Congratulations,
we're so proud of
you. Love you,
Mom & Dad

Anjali Thawani, M.D.

We are extremely proud of you. You can't imagine the sense of relief we are experiencing. This would be a most opportune time to ask for money. :-)
CONGRATS and WE LOVE YOU
Mom and Dad

David Gerard Thompson, M.D.

"To accomplish great things we must not only dream but act." -B. Blackwell

Becoming a doctor is something you have dreamed of your entire life. Because of your inspiring drive and determination, you have done it! We are very proud of you.

May God bless and guide you on your journey.

Love,
Mom, Dad, Kristin, Kristina,
Grandma Esther, Grandma Mary, and Daisy
(We know Grandpa's smiling down on you, too.)
Andrew Jarrett Tompkins, M.D.

Congratulations! Today is your day. You're off to Great Places! You're off & Away!
- Dr. Seuss

We love you so much and are so very proud of the person you are. We know you will make a difference as you continue to strive for excellence through caring.
Love,
Dad, Mom, Jonathan & all the Family

Adam J. Tulte, M.D.

Congratulations! We are very proud of you. Your grandparents would be proud of you, too. Your family loves you.
Mom, Dad, Brenna, and Grandma Gerhold

Terence E. Wade, M.D.

As you leave our arms and reach out for the world, our little boy will always be with us. And we will always be with you.
Along the way remember to give thanks, have faith, and speak your love.
Congratulations, Terry!
Love, Mom and Dad

Elizabeth Tuohy, M.D.

Dear Elizabeth,
Congratulations! The light at the end of the tunnel is so bright! We are proud of you and wish you much success and enjoyment in your future as a caretaker of people.
Love.
Dad, Mom, and Brian

Terri Washington, M.D.

Congratulations!
God chose you to be the first doctor in the family. We are extremely proud and love you very much!!!
Terri and Mom

Amy Meyers Wickman, M.D.

Congratulations!

Kathryn Anne Miller, M.D.
James William Weedon, II, M.D.

Congratulations, Katie & Jamie - A perfect match!

With love from The Miller and Weedon Families

Congratulations Class of 2005!!!

Good Luck and Best Wishes in your Residencies

The Department of Family Medicine wishes to congratulate the Class of 2005!

One Final Fling - Spring Formal 2005

CONGRATULATIONS TO THIS YEAR'S GRADUATING CLASS!
WISHING ALL OF YOU MUCH SUCCESS IN ALL OF YOUR ENDEAVORS!

The Department of Preventative Medicine & Epidemiology

An apple a day...
Thank You!!

To the Class of 2005:

We hope you enjoy your yearbook! We worked hard to put together a book that will always remind us of our four years at Stritch. In the time between Orientation and Disorientation, we've been through a lot together. We've ordered Mama-Thai for late-night dinners in the atrium while studying, drunk our post-test jager in probably a few too many beers, run to get charts for each other on surgery rounds, and maybe even covered for each other while we were missing days for "second-looks" at residency programs. We all made it through these four years because we were a class that helped one another. We may have had a reputation for being the ones that had "a little too much fun", but we've all shown that we knew how to maintain a balance between working hard and playing hard. We are so proud of our class, and we wish for everyone that they may take the lessons learned at Stritch, both within its walls and out, on to our residencies, careers, and lives. Never forget to treat the human spirit.

Best of luck and many blessings,
Todd and Carolyn

Cheers to you, Doctors!

Special thanks to:

Mike Lambesis
Dee Harris
Jennifer Curto
Amy Hagan
Paul Casey

Angie Ingram
Janet Pan
Achimina Peraillo
Jadyn Mansoquin

Of course, to all of our classmates, who created the memories that fill this book.
