The Hippocratic Oath

I swear to fulfill, to the best of my ability and judgment, this covenant

I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.

I will apply, for the benefit of the sick, all measures which are required, avoiding those twin traps of over-treatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon’s knife or the chemist’s drug.

I will not be ashamed to say “I know not” or “I cannot do.” Nor will I fail to call in my colleagues when the skills of another are needed for a patient’s recovery.

I will respect the privacy of my patients. Their problems are not disclosed by me, save to those to whom I am to speak them, because the problems are not disclosed by me, save to those to whom I am to speak them, because the world may know. Most especially must I tread with care in matters of life and death. If it is given to me to save a life, all thanks; but it may also be within my power to take a life, and this awesome responsibility must be faced with great humility and awareness of my own fallibility. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person’s family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those of my mind and body as well as the unwell.

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

We also treat the human spirit...
I will stand in the gap. I will be glad. I will not trap. I will not play and act. I will speak. I will work. I will not be a world without a reason. I will be human. If I do not have a human and moral spirit, I will not be anything. I will cry. I will not be a blind man. I will not be a man without a heart. I will not be a man without a spirit.
Dear Class of 2006

It is with bittersweet emotions that I write to you in this capacity. As you know, I am, in a sense, "graduating" with you. As I end my tenure as dean, there are several thoughts and ideas that seem to push aside many of the mundane issues with which I deal on a daily basis.

The first is that it has been my honor to be your dean. In some ways, this is because you are a very special group of men and women who will soon be wonderful physicians. But, more importantly, the opportunity to "serve" you is what this job is all about and in many ways that's what being a doctor is all about - the opportunity to serve your patients and society. I've watched you grow and mature in your roles and I believe you understand this responsibility. In the Jesuit tradition, you have become "men and women for others."

The second is that I am very excited for the future of your medical school. I believe we have an exceptional education program that has prepared you as well as any student in the United States. You have participated in the care of patients at the extremes of age with a variety of diseases unparalleled in this country. Clinically, you are ready to deal with any problems you will face in your new career. More importantly, to me, you have learned how to talk to patients and their loved ones; you have learned compassion and empathy; you have learned to care - you are ready to bear the title of "physician."

Your school, Stritch, will always be here to serve your needs. We do hope that in the future, you will maintain your relationship with Stritch. While it may not seem so important now, Stritch will be the place that gave you the opportunity to have the greatest "job" in the world and, when the time is right, it will be appropriate for you to help others to share in your heritage.

So, as I graduate with you and look to a new career and set of goals, I think back 38 years when I was in your shoes and realize that there has never been a single day when I didn't want to go to work. How lucky I have been and how hopeful I am that when you reach this point in life, you'll be able to say the same thing. God speed and God bless.

Stephen Slogoff
Dean, SSOM

Dear Class of 2006

You and your families should be very proud of the accomplishment that you have made this year — graduating from the Stritch School of Medicine (SSOM). You now are about to embark on an exciting phase of your career in medicine. The time you spend in your residency will be just as fulfilling as your time here at Stritch. In fact, you are about to meet and work with individuals who will be your lifelong colleagues in your field, both professionally as well as personally. Believe me, your time here at SSOM has prepared you for this next step. You all have the knowledge and the skills to excel in your residency and beyond because of the excellent faculty and staff that we have here at Loyola. Although the field of medicine is currently changing with all of the regulatory and financial issues facing us, please remember what the practice of medicine is all about — a relationship between you and your patient. This holds true not only if you become a researcher at the bench where future patients may benefit from your discoveries, or a health care administrator where decisions are about what the best care is for all patients. When times are stressful and the answers are not readily apparent, just examine whatever the issue is and ask yourself what is in the best interest for my patient and the answers will be more apparent.

Good luck to all of you and please stay in contact with us as much as possible — you are our legacy for which we are extremely proud.

John M. Lee MD PhD
Dean, Stritch School of Medicine
Professor of Pathology and Pharmacology

THE HISTORY OF STRITCH SCHOOL OF MEDICINE

In 1892, Rev. Ignatius Breyne, S.J., founded St. Mary’s College, a liberal arts college on the west side of Chicago. Shortly thereafter, the school was renamed Loyola University Chicago and was relocated to what is now its Lakeshore Campus.

At that time, Chicago boasted several independent medical colleges. In 1900, Loyola became associated with the Illinois Medical College, Benedict and Reliance Medical Colleges joined the affiliation in 1910. By 1915, the school became Loyola University School of Medicine.

In 1917, the Chicago College of Medicine and Surgery was purchased to become the first home of the School of Medicine. This building was located on South Wolcott, just adjacent to Cook County Hospital. On February 22, 1920, the medical school earned accreditation from the Council on Medical Education and Hospitals of the American Medical Association.

It wasn’t until the 1960’s that Loyola was able to flourish financially, when Samuel Cardinal Stritch, Archbishop of Chicago, lent his name to an annual fundraising dinner for the school. This became a major source of financial support for Loyola for many years. On April 12, 1968, the Board of Trustees approved a motion for the school to be renamed as the Stritch School of Medicine.

As the school grew, a larger facility was desperately needed, and plans for the construction of a new school building were initiated in 1966. The buildings were to be constructed on a 60-acre parcel of land in Maywood, Illinois, next to the former Veterans’ Administration Hospital campus. The new medical school opened its doors on January 1, 1969, and the 548-bed Foster McGaw teaching hospital, named after a generous benefactor, began admitting patients on May 31 of the same year.

In 1987, the Maloney Outpatient Center was constructed to allow for Loyola’s expanding need for space. This building now serves as a location for many administrative offices at Loyola.

In 1988, the new Loyola Surgical Pavilion was added to the complex. In the same year, Loyola was designated a Level 1 trauma center. This was supplemented by the addition of the Lifestyles Wellness Center, the Emergency Medical System and the completion of the Emergency Care Facility in 1991.

In 1994, a cancer center was built to serve that particular patient population. The center was named for Cardinal Bernardin in 1996 after he received care in the facility.

Again, the school garnered its accommodations, and in July 1997, the current Stritch School of Medicine opened its doors to the class of 2001. The building was geared with the best of its generous contributors: John and Narda Cuneo. The Center for Health and Fitness was also added to Loyola’s campus at this time.

The most recent addition to Loyola is the Outpatient Center on the south end of campus. It opened in late 2004, including an ambulatory surgery facility, a brand new MRI machine, and rooms for all of the specialty clinics.

Loyola University Health System currently is a teaching tertiary care facility with 550 licensed beds. It continues to be nationally recognized for its excellence in many different fields. Cardinal Stritch would be dedicated to meeting the ever-changing needs of the community it serves.

St. Luke

Patron Saint of Physicians

The central figure is St. Luke, the patron saint of medicine. His robe is green, the symbolic color of both life and medicine. The red heart in the center of his chest not only represents God’s love and care for others, but also symbolizes biology and physiology. The red staff of Asclepius in his hand is an ancient Greek and Roman symbol of healing. The figure’s prominent hands symbolize caring for others, community and society through public health initiatives. St. Luke is walking down a yellow gravel path that represents the golden path of life.

St. Luke’s eyes direct the viewer to the panels on the left which are comprised of symbols of core clinical and basic science disciplines. These include a mortar and pestle representing pharmacology and pharmacy, the Greek word "hypatia" symbolizing public health and hygiene, a scalpel for surgery, forceps for obstetrics and gynecology, a tube used as an early stethoscope for medicine, a genderless face with “RC” and male and female symbols for psychiatry and the behavioral sciences, a flank of ether for both biochemistry and the major advances in the medical sciences, a skull representing anatomy, a book as a source of knowledge with DNA, the basic unit of life and "CCN" (pennicillin), one of the major advances in the fight against infection.

The window also includes three larger panels to the right of St. Luke. The first depicts Mother Cabrini, a member of a local Chinese order of nuns who is a saint and was the founder of the first Catholic hospital. The second features a face peering into a microscope. The microscope is a symbol of pathology, microbiology, and science. The face represents a medical student in his or her quest to master knowledge of disease. The third panel depicts Mother Theresa, a saint who spent her life caring for the sick and poor, holding an infant as a symbol of pediatrics.

There are a variety of other symbols in the central panel including two flowers. The purple flower on the right is figuaro, the name of digitalis. The red flowers on the left is a poppy, the source of opium and morphine. The words “Primum non nocere” translate to “First do no harm,” the first rule of medicine dating back to the age of Hippocrates. “Homina medicinae a Deo omni nostris molda,” a quotation from the Old Testament, states that one is to honor the physician because he or she derives wisdom from God. Finally, the name of Raphael, the archangel, appears in association with the winged serpent Cuthiana, the guardian of science and knowledge. In Hebrew this name means “healer of God.” It is also the baptismal name of Dr. Ralph P. Leschner, an honored Loyola physician who worked with the artist David Lee Cziczo, in the design of this window.

To our families: We made it! Thanks for being our cheering section through the ups and downs of the past four years. We couldn't have done it without you.

To the Class of 2006: We will never forget the fun times of lecture hall, studying for board exams, and seeing all of your smiling faces at five a.m. for morning rounds! You have inspired us and laughed with us—we wish you all the very best.

Thank you so much to my friends and family—especially my husband Pete. You’ve been so wonderful and supportive—I couldn’t have done it without you!

Love, Katy
To my family: Thanks to my mom for her three hour chats, my dad for early morning grapefruit science lessons, my sister for scaring away bullies for me, my aunt for themed emails and cards, my grandpa who “encouraged” me to hit home runs, my uncle who taught me to fish, my brother-in-law for introducing Tim to explosives, cousin Rita for our crazy times in the villa, and my nephews and nieces for keeping me on my toes.

To my friends: Thanks to Tim for being Tycho’s best friend, to El and Em for a lifetime of memories and eight years of emails and phone calls, to Erik who wears many hats including mover-guy and five star chef, to TA 31 and the VC crowd for cross country love, to Liza and Liz, thanks for ladies who lunch and margarita marathons, Cassie and Jer for fun-yak inspired camping trips, Rebecca who spent a year trapped with me in a two-flat and lived to tell the tale, and all the other wonderful people I met and spent time with at Stritch.
The Starfish

An old man was walking on the beach at dawn when he noticed a young man picking up starfish stranded by the retreating tide, and throwing them back into the sea one by one. The old man approached the young man and asked him why he was doing this. The young man replied that the starfish would die if left exposed to the morning sun. "But the beach goes on for miles," exclaimed the old man, "and there are thousands of starfish. You will not be able to save them all. How can your effort make a difference?" The young man looked at the starfish in his hand and threw it to safety in the waves. "To that one," said the young man, "it made a difference."

Some people come into our lives and quickly go. Some people move our souls to dance. They stay in our lives for awhile, leave footprints on our hearts, and we are never, ever the same.
Nicholas Gruenwald, MD

I am eternally grateful for the love, patience, and support that my beautiful wife has provided me while in medical school. Without her, I surely would have lost my way.

Thank you to my entire family for their constant belief in me. Without them, I never could have come this far.

Matthew Harinstein, MD
Thank you...

... to Mom and Dad, for the complete and unwavering love and support, always.
... to my sister, Chrissy, for the cooking, cards, and calls, and for you.
... to Eric, for the love and devotion, and for taking me outside of medical school now and then.
... to Gwendolyn, for VC pride, and being my first link from the past who joined me in the future.
... to Liz, for the reminder that staying true to our emotions helps us survive, and for Dance!
... to Jim, for the Jamba Juice, suburban Chinatown, and the margaritas.
... to Adrienne, for being the first person to see me cry at school, and sticking by me.
... to Dawn, for being the rock, always cool, calm and collected, even when you were a diva.
... to Anjali, for Marmot, for brownies, and for the ability to smile through almost anything.
... to Tara and Ethan, for the overwhelming love, and for continually keeping me humble.
... to The C-9 Girls, for always being able to come together just as we were.
... And to everyone who has been there for me throughout these last four years: I will never forget all of the support and assistance on this difficult road. Thank you for being a part of my life.
Medical school was the most challenging four years of my life and I know better than to think I would have persevered through it without assistance. Thank you Mom, Dad, Grandma, Libby, Tim, Jerry, Kelly, and everyone else in my family who prayed for me and supported me through thick and thin. But, most of all, my heartfelt thanks must go to Lindsey. Without you to be my rock of support, I don’t know how this odyssey would have ended. As the famous poem 'Footprints' says, 'During your times of trial and suffering (and there were plenty), when you see only one set of footprints, it was then' that Lindsey carried me.
Thank you to all my family and friends, near and far, for helping to make the last four years so memorable!
Memories of the last four years...

I want to thank my wife Sumnble, my parents, and my family for their constant love and support. I appreciate everything that you have done for me and I love you all!
I just want to thank all of my fellow students at Loyola for four of the best years of my life. I want to thank all of my close friends who stood by me even when I was at my worst. And last but not least, I want to thank my family...Mom, Dad, Kristi, Ryan, and my new niece Bella. I couldn't have done it without all of you.
C. Kimi Nishi, MD

Thank you Mama, Daddy, Eugene, and all of my other family and friends for being so loving and supportive.

Crystal Ortman, MD
Thank you Mom, Dad, Mike, Grandma, and Uncle Jim! I love you!!

To my grandfather who taught me that to alleviate the pain of others is equally as important in treating one's disease. Thank you grandpa.
Thank you, with all of my heart, to my family and friends for all of the loving support you showered me with throughout medical school. Always, Ade
Some things I'll always remember about Loyola:

- Late nights in the anatomy lab working on 'Ms. Rus'
- Tuesday $1 burger nights
- Finally moving downtown
- The Second City and Cubs games for First Year Orientation
- 'Airplane' quotes while traveling in Guatemala
- The racquetball ladder
- Tortilla breaks while studying for boards
- Powderpuff games
- The atrium lined with Thanksgiving Baskets
- Candy and conversation in the Ministry Office
- The DePorres crew

To all of my friends here at Loyola, congratulations on all the great things you have achieved. I wish you love, luck, and happiness wherever you go. To both sets of parents, I can't thank you enough for the love and support you have shown to Kathleen and me.

And to my dear wife Kathleen, your strength, laughter, faith, and love has been a guiding light for me. Thank you for being by my side throughout this wonderful journey.
What I will remember:

- 1st year parties • JL, AR, ET, Cards • SB, MA, JL, RG, MM and the rotating cast of "easy money" • AD, AP, DK, LT, Dollar burger night • PR. Ankle sprain on the basketball court... The Alexian experience • JC, FVx2, RH, LG, EG... Racquetball tournaments... Draft Days at the Ale House and the smack talk after... Roommates • OU, JL... Gossip hour with JV... 4:45 AM • 5PM with Team 3 • WS, EK, NU... Walking home from the Depot... Abdominal cramping in Guatemala... Laughs in Lab • DR, AS... Graduation
Thank you to all my family and friends for your love and support over the years. I couldn't have done it without you.
Thank you so much to my Mom and Dad, friends and family. It's been a long road but you've always been there for me. I love you all...and God only knows where I'd be without you!
To my parents and family: Thank you for supporting me before this journey ever started.

To my sisters: Thank you for being my best friends.

To Matt: Thank you for enabling me to go to med school and meet a boy! You fulfill me.

To my friends: Thank you for lifelong friendship. The last four years were amazing.

I love you all,

Rachel

To my parents and family: Thank you for supporting me before this journey ever started.

To my sisters: Thank you for being my best friends.

To Matt: Thank you for enabling me to go to med school and meet a boy! You fulfill me.

To my friends: Thank you for lifelong friendship. The last four years were amazing.

I love you all,

Rachel
Thank you to all my family and friends who have been so supportive over the years. I couldn't have gotten here without you!
Mark Andolina, M.D.

Dear Mark,
Your smile and kindness continue to warm our hearts. Your quiet strength will make you a fine physician. Congratulations and love to you and Katie! We are so proud of you.
Mom, Dad, Carrie, Jeff and Sarah

Kate Bachman, M.D.

Dear Kate,
We are so proud of you and all that you have accomplished. We love you very much!
Dad, Mom, Kevin and Dan

Arvin K. Bhatia, M.D.

Yesterday's dreams are today's reality. Congratulations Dr. Arvin K. Bhatia

Stephen A. Blatt, M.D.

Hold on to the fond memories of these days and go confidently into the future. God loves you and we love you too.
Massi's, Mama's, Amit, Dad & Mom

Katy Buch, M.D.

Congratulations
Kshiti (Katy) Buch, M.D.
A Future Surgeon

True to your mission of being "an always first," you are the first doctor in our Buch family. Wishing you a bright future.
-Mom, Dad, Dhivat, and Buch Family

Sarah Casado, M.D.

Dear Sarah,
We're very proud of all you've accomplished. Congratulations from all of your family. May your profession be a source of happiness and satisfaction all of your life.
Love Always,
Dad, Mom, CM, Denver, and Tony

Kevin Patrick Carney, M.D.

"A hundred years from now it will not matter what my bank account was, the sort of house I lived in, or the kind of car I drove...but the world may be different because I was important in the life of a child."

To a remarkable human being and future pediatrician!
We love you, Kevin -
Mom, Dad, Maureen and Mike

Kathleen Ann Cevasco, M.D.

You must be the change you wish to see in the world.
-Gandhi

Kacy,
From Ballerina to Cheerleading Dreams
You danced right through your teens. St. Hilary Taunts and Hoban's Challenge from Party Dress to Jeans.

In Chile you grew to really know who the Dayton flyer could be very soon at Stritch. You stretched and polished your gifts a physician-from little "Hot Tea June." You're the best!
Love,
Dad and Mom
Ebe Chinweze, M.D.

Dr. Ebe,
A VICTORY for one, is a VICTORY for all!

You done us proud, girl!
Much love,
Scott, Jones, Lawrence
and Chinweze family

You go boy!
Love from your brothers!

Katy Corrigan, M.D.

Congratulations from all of us.
We love you!

Pete, James, Mort, Dad,
Mom, Kelly and Matt

You go boy!
Love from your brothers!

Rebecca Florsheim, M.D.

We are so very proud of who you are and all you
have accomplished. We love you very much and
we wish you a life filled with love, joy, and
fulfillment. You are a blessing.
Mom, Dad, Ali, Rob, David, Andrea and all of your
nieces and nephews.

Steven J. Engman, M.D./PhD.

Even as a child, you “doctored your friends.”

Gwenyth Anne Fischer, M.D.

Congratulations!
We are all so very proud of you and know you will make a
wonderful Doctor. We love you.

Mom, Dad, and the rest of the Engmans

Michelle M. Fontana, M.D.

Not too long ago.......
Dennis Joseph Goldberg, M.D.

Dear D.J.,

From Kindergarten Graduation
To Medical School Graduation
We have always known you have
The Heart and Soul of a Great Doctor.

Love,
Mom and Dad
Marcie and Katie
Grandma and Grandpa

Amy Golden, M.D.

Dr. Amy Golden,
Words cannot begin to express how very proud we are of you. You are the most amazing, wonderful woman! We love you!

Love,
Mom and Dad

Dr. Amy Golden at age one
years getting ready to see her first patient.

Matthew E. Harinstein, M.D.

Congratulations, Matt! You truly have earned this day and we’re extremely proud of you. Always remain true to your heart and profession.

Love,
Mom, Dad & Lisa

Liza Henry, M.D.

Congratulations Lisa!
You may not know all that the world has to offer, but we know that the world will be a better place because of what you have in offer it. You may not know which path you should follow, but we know that you will choose your path in life with honor and integrity, as you always have. You may question what you have already accomplished, but we know you will fulfill the vision you find in your heart.

As all of your superpowers open themselves try to listen to your heart and follow where it leads you. Never forget that you are one source of endless pride and joy.

Thank you for being a part of our lives.

Mama, Dad and Charity

Carrie A Holland, M.D.

From the earliest days you always know the direction you wanted to go and your hard work and perseverance got you there. Congratulations on reaching your goal and the best of luck in your medical career. We’re very proud of you and all that you have accomplished. We love you!

Mom, Dad, and Ann

David John Homan, Jr., M.D.

Dear David,
We were given a gift from God to raise you. We are so lucky and grateful, you are wonderful son, brother, brother-in-law, husband and we are confident you will be an awesome doctor. Congratulations!

We love you always.
God bless you always!

Mom, Dad, Lindsey, Libby & Jim
Angela M. Ingraham, M.D.

Dearest Ang,

Congratulations! We are so proud of you. Your patients will reap the benefits of your hard work, perseverance, and dedication.

Love,
Mom, Dad, Ben, Ted, & Hudson

Douglas J. Kasper, M.D.

Dear Doug,

Congratulations on receiving your medical degree. We are truly proud of you and your accomplishments. May your career as a physician be successful and a source of happiness and satisfaction to you always.

Love,
Dad, Mom, Susan, Matt and Katie

Rajiv B. Kumar, M.D.

#1 Doctor on Planet Earth

Finally my Grandson fulfills my dream.....
Sushila Devi/B.L. Narsimham/George West

Congratulations!
We love you very much and are truly proud of all you have accomplished! "Your talent is God's gift to you. What you do with it is your gift back to God."

Mom, Dad, Lisa & Family, Bhashakarla Families, Ma-maa Vernice & Families, Jim & Alice, Patel Family, Subhash & Karun, Domalpalli Families!

Julia Koval, M.D.

We admire your extraordinary talents and vigorous labors you went through to become a doctor.

Julia, Adam, Kim, Maria & the A.C.O.L.O.P.H.

John J. Lucey, M.D.

You have always been a caring brother.

Mom, Grandma, Oksana, Marc, Igor, Val, and Masha

Kelsae Lipe, M.D.

The Cutest Doctor Lipe 801!

Congratulations, Dr. Kelsae Lipe!
We are so very proud of you and your tremendous accomplishment.
May you find great satisfaction in this most important profession.

Love, Mom, Dad, Maren, and Tristan

Brian Ljungbaas, M.D.

Well Done, Bri!

You'll always be our little life preserver...
Good luck in the OR!
Love Always,
Mom, Dad, and Julie

Mom, Grandma, Oksana, Marc, Igor, Val, and Masha
Katie Mang-Smith, M.D.

The Holy Spirit has no hands, head, or heart like yours. No other woman on earth can do what you alone are called to do, can give to the world what you alone were sent to give through your authentic gifts.

LET YOUR LIGHT SHINE

Congratulations your family loves you and supports you.

Dad, Mom, Malorie, Darcie, and Paul

Craig McAsey, M.D.

CONGRATULATIONS!

MAY ALL THE LOVE AND PROTECTION GOD CAN GIVE BE YOURS IN ABUNDANCE AS LONG AS YOU LIVE.

WE LOVE YOU!

YOUR ENTIRE FAMILY

Kristina Bell Mixer, M.D.

Great time and effort we’ve watched you invest
You’ve worked hard and studied, and now passed the test
Our hearts do fairly burst with pride
That glows within us, deep inside
For as you grew up, we could clearly see
It was a doctor you were born to be!

All our love,
Mom, Dad and Lisa

Michael McAsey, M.D.

You have been a never-ending source of pride for your family. The medical profession is blessed to have you join its ranks. Congratulations!

Love,
Mom, Dad, Courtney, Mark, Gavin, Meghan and Aidan

Michael and Anna, Congratulations to you both! We are so proud of you and we love you!

The Neumann and Meeusen families
Keep up the good work, Carl! We are very proud of you.

Mom, Dad, Sarah, Kathryn, Miguel and Will

Mauro Vido Montevacchi, M.D.

This little boy grew up to be one fine doctor!

All of your hard work has brought you to this milestone in your life. Your life is now at a new beginning.

Love and Congratulations,
Dad, Mom, Kristi, Ryan, and Isabella

Carl W. Moeller, M.D.

Keep up the good work. Carl! We are very proud of you.

EMILY McCANN TUERK, M.D.

"EMMA J."

IS NOW

"DR. EMMA"

WE ARE ALL SO PROUD OF YOU.

LOVE,
Mom, Dad, Libby, Dan & Jeanne

Jill Judith Veselik, M.D.
Future Pediatrician

Congratulations and may God continue to bless you.

We love you and we are so proud to be your family!

Frank E. Villaume IV, M.D.

Mom, Dad and everyone in the Villaume and Borsheim families congratulate you and send their love on this special day.
We wish you success as you continue your journey.

Michael J. Vinikoor, M.D.

Dear Michael,

We are celebrating your graduation from medical school with love, and pride. Watching you develop into a man who has a zest for life, is adventurous, loving and passionate has been a pleasure. May you find happiness and satisfaction as a physician, sharing your special gifts with people you care for.

Love,
Mom, Dad, Lindsay, Jordan and your Pop Pop

Kristina E. West, M.D.

Yu Go, Silly!!

We are so proud of all that you’ve accomplished, and for all that you are. Love you so much, Kristy!
Mom, Dad, Kathryn, Andy, and Nate &“G”, too!
Rachel Ann Woodcock, M.D.

You were a remarkable child.
You have become a remarkable woman,
A person of energy, insight, and compassion.
Grow in knowledge, wisdom and love.
Godspeed.
Mom and Dad
Mollie and Sarah

Christine M. Yu, M.D.

Our baby girl just became an M.D.

Steven William Zils, M.D.

You've set your course.
Enjoy the journey!

Congratulations!
We love you!
Mom and Dad

Cassia Victoria Zarauela, M.D.

To our "Mandolin, Princess, MaMa, Puddin, Turkey, China Doll, (just Cass), and Lisa the waitress." We have seen you grow from a young child to a wife, to a mother and now to be a doctor. We are so proud of you and all you have accomplished.

Robert Anthony Gerber, M.D.

Dr. Robert Anthony Gerber
Way to go Bobbie!!
Registered nurse, doctor of the arts, and maybe more! We love you and your family.
Mom and Dad

Love, Mom, Jeremy, Alana, Uncle Johnny, Aunt Sally, Aunt Janie
and of course "Grama and Grampa" who are watching over you....
Congratulations
Stritch School of Medicine
Class of 2006

"You are educated. Your certification is in your degree. You may think of it as the ticket to the good life. Let me ask you to think of an alternative. Think of it as your ticket to change the world."

-Tom Brokaw

Department of Medicine
Patrick J. Fahey, M.D. - Chairperson

The “Well-Rounded” Family Medicine Physicians
CONGRATULATES THE CLASS OF 2006!
To: Members of the Stritch School of Medicine, Class of 2006

From: The Student Affairs Office

Subject: YOU MADE IT!

We would like to add our congratulations to those many others you have received. It has truly been our pleasure in getting to know and work with each of you during your time with us.

Can you believe how fast that time has gone? Do you remember cramming into room 150 that first day of Orientation and being forced to talk to one another? How about your first exam in MCBG? Do you recall your first day of Structure in the Anatomy Lab? What about your first day in the Clinical Skills area, or even better, the first day on the floors? What about those interviews that just now seem to have ended? And finally, Graduation, a day that at times looked so far away, is now upon us and most of you will be going to points all over the country.

Know that you will be missed, but at the same time we could not be more proud of you. You take with you a confidence, assuredness and training that will serve you well in your years as a physician. We know you will be successful and that you will stand tall in your medical pursuits. We also believe that you will represent us well, and further strengthen the name and reputation of Loyola Stritch wherever your goals may lead you.

Finally, welcome to our family of alumni. We hope that in the near future you will get to meet some of them during your residency. We look forward to seeing you at a reunion or two, and maybe even as a future member of our faculty.

Remember to stop by whenever you are in the neighborhood, as we would love to be among those who can say, "Welcome home."

Until we meet again, congratulations and good luck to all of you.

Best of luck!!!

Department of Urology

Dear all:

Shown embedded in the pages of this yearbook are snapshots depicting how much our lives have been intertwined the past four years. From the most intense times: studying for exams and early AM rounds to the happiest moments: Match Day in the Atrium and post-test gatherings, the SSOM Class of 2006 has become a strong united community of family and friends. Now we move forward as physicians and take these priceless memories and experiences with us, shaping our new roles as health care providers and teachers. Best wishes to everyone and we hope to see you in 5 years at the reunion!

"May your best day in the past be your worst day in the future."

Sincerely,

Class of 2006 – Senior Class Officers

Congratulations Class of 2006! We have come so far, and we will carry all of these great memories with us as we continue on our journey. Thanks for all the long days of lecture, studying marathons, nights on call, never-ending rounds on the wards, fun parties and dances, and, especially, for all the great friendships. We are proud to be graduating with such a fantastic group of our colleagues and friends! We hope you enjoy your yearbook—all of the memories between these covers are possible because of every one of you!

Best wishes,

The Yearbook Staff

Adrienne, Jaclyn, Janet, Rachel, and Terry

Special Thanks to Dean Lambesis, Dee Harris and our third year staff members: Sarah Brickey, Elizabeth Eichner and Megan Rich

Thanks also to: Angie Ingraham, Wajeeh Salah, Christine Yu, Judy Chen, LUHS Medical Photography, Wyckoff-Tweedie Photographers, Loyola Medicine, and everyone who turned in pictures for use in the yearbook...thanks so much!!!
